Lessons learned

- Movable Furniture
- Writable surfaces - type
- Teaching station
- Unnecessary extras
- Staff development with space development
- Useful (relevant) feedback

What works well

- Good light and acoustics
- Space
- Easily reconfigurable (even within a session)
- Supportive Technology
- Writable surfaces
- Group learning
- Prototype spaces

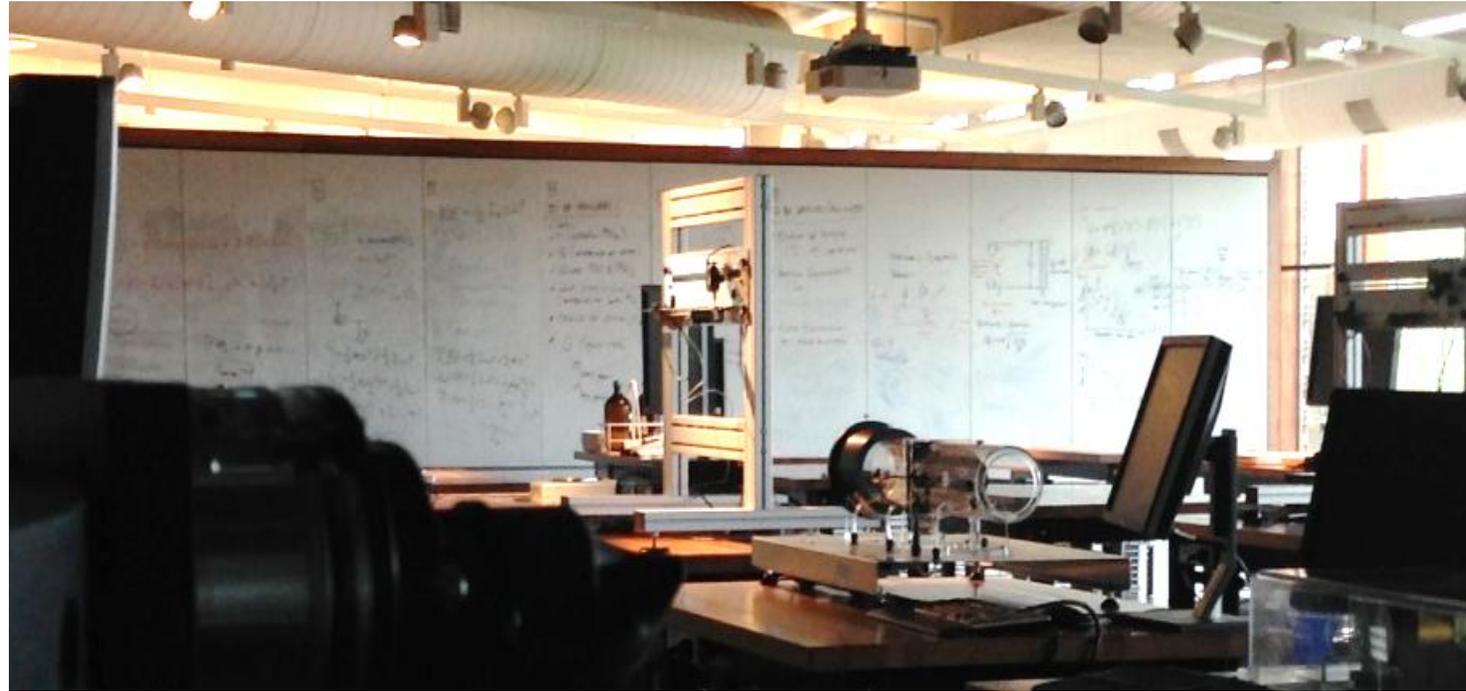

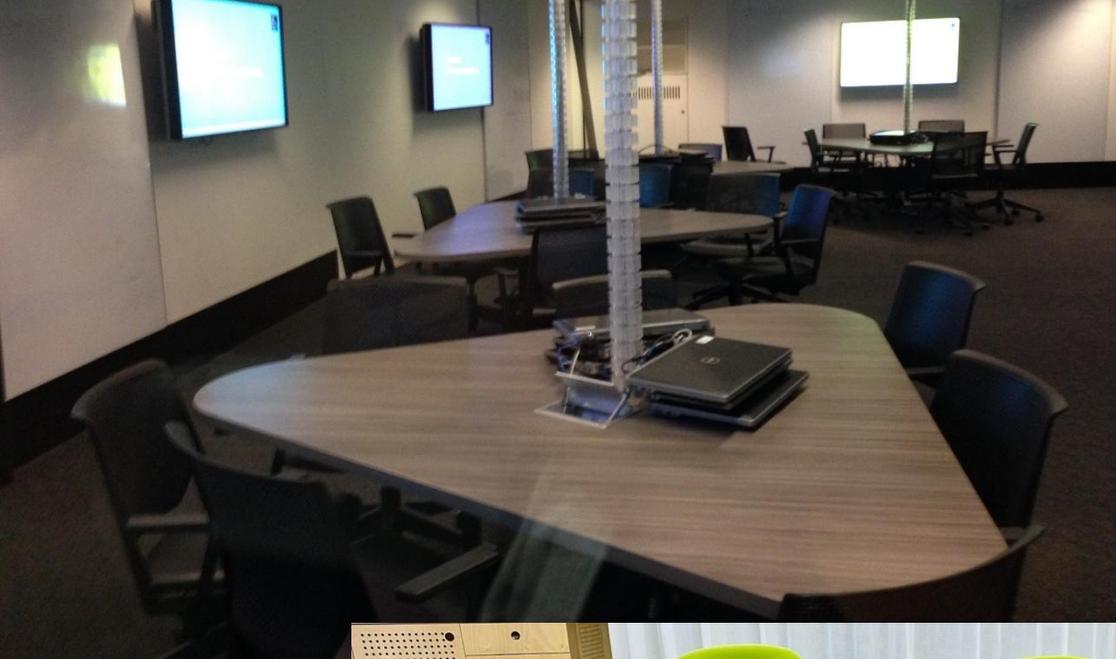

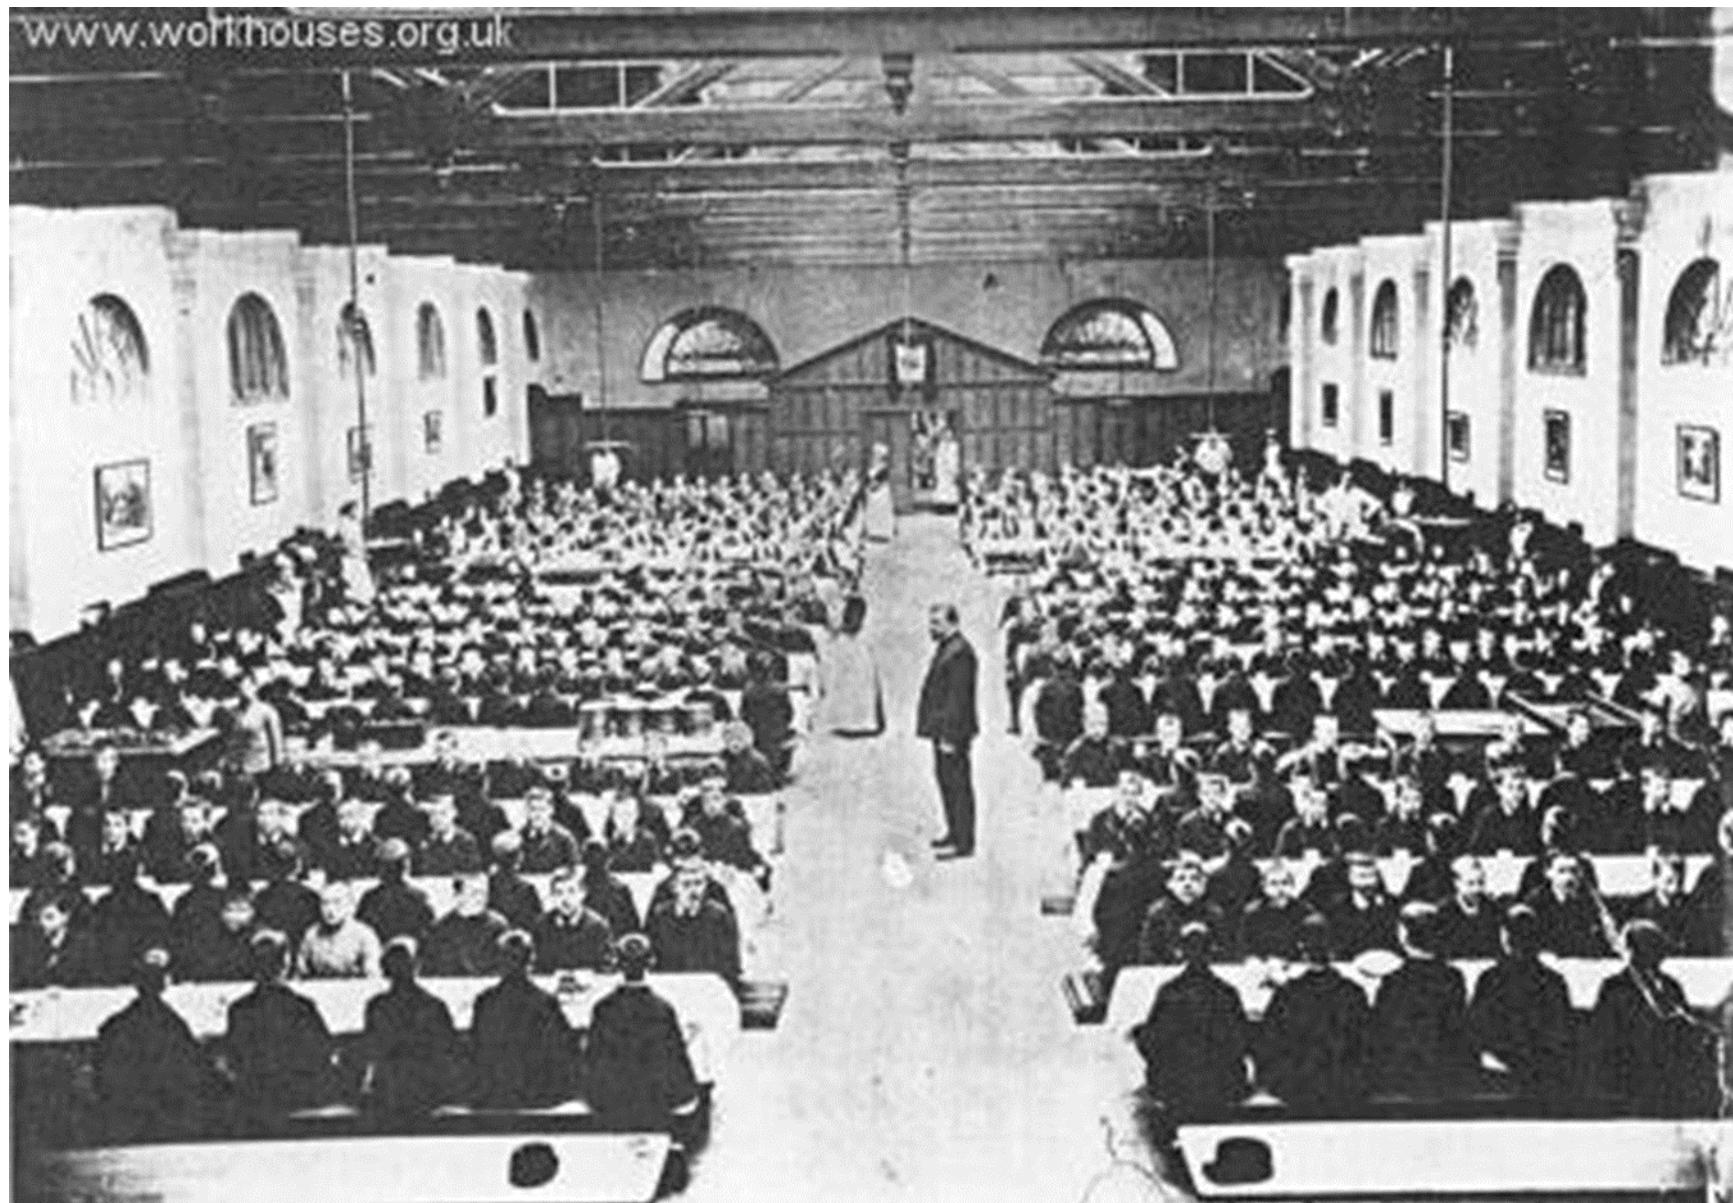

"Your proposal is bold and innovative but we are a traditional corporation. I would prefer changes like the ones we've tried before."

Thanks to TEFMA for providing me with this opportunity, and thanks to all the people I met.
